

Update on NMOSD and MOGAD

SÃO PAULO, BRAZIL | FEBRUARY 7-8, 2025

There have been recent important progresses in the definition of diagnosis, prognosis and treatment of NMOSD/MOGAD which are now treatable diseases. The European Charcot Foundation, in collaboration with the European network of NMOSD and MOGAD, is planning a workshop to be held in San Paolo, Brazil, 7-8 February 2025.

The first day aims to update the most recent advances in these diseases, and the second day will be dedicated to free communications and to industry symposia. Both the in-presence and virtual active and passive participation are possible because we want to allow experts from all continents to attend it, however, the physical participation is very welcome in order to facilitate interactions and future collaborations.

SCIENTIFIC COMMITTEE:

Jefferson Becker, Giancarlo Comi, Kazuo Fujihara, Romain Mairingier, Jaqueline Palace, Friedemann Paul, Fu Dong Shi

The call for abstracts will be opened on October 1st and the deadline will be on December 31st.

Based on the number of contributions, a selection will be operated for posters or oral presentations.

CONTACTS

- Scientific secretariat: Jefferson Becker
(jefferson.becker@pucrs.br)
- Fabiana Totaro (fabiana.totaro@charcot-ms.org)
